Dear Sir/Madam,

APPLICATION FOR THE POSITION OF WEB DESIGNER/ DEVELOPER INTERN

I am writing this cover letter to apply for the position as Web Designer/ Developer Intern at your company. I saw the advertisement on JobStreet (www.jobstreet.com) date 15th October 2025. I am interested in this job because it aligns with my goal to become a Full Stack Web Developer. Thank you for reviewing my application. I have attached my resume for your consideration.

I graduated from Universiti Teknikal Malaysia Melaka in Diploma of Computer Science. I have achieved CGPA of 3.60. On top of that, I have obtained A grades in Database, System Analysis and Design and Web Programming subjects. These subjects strengthened my ability to design system architectures, build efficient databases, and develop functional web applications.

In addition, I have developed strong problem solving and technical skills in various web technologies. I was the finalist in Final WorldSkills Malaysia Belia competition in Web Technologies. I have been trained the Laravel framework and web language such as JavaScript during the competition. One challenging task was transfer a web project from local to live environment. These experiences enhanced my technical skills.

I believe that the position of Web Designer/ Developer Intern at your company offers me a platform to gain my first experience in workplace. I would greatly appreciate the opportunity to attend an interview. Please feel free to contact me via phone at 0197231577 or email at ariffitrimohdjamil@gmail.com. I am looking forward to hearing from you.

Yours sincerely,

Arif Fitri Bin Mohd Jamil
